The Lofts of Washington University
Transportation Options

Safe and healthy ways to get to campus!

Walking. ~15min

Melville/Ackert Walkway
- Head West along Delmar and turn South on Melville, which will lead to the Ackert Walkway and pedestrian bridge over Forest Park Parkway. ~.9mi to Brookings Hall

Skinker
- Head East along Delmar and turn South on Skinker. Significant investments in lighting and safety improvements are set to be installed summer 2014! ~.8mi to Brookings Hall

Bicycling. ~7min

The two best routes to campus for cycling are the same as the walking instructions above. Please note:
- It is against state and municipal ordinances to ride one’s bicycle on sidewalks in business districts such as the Delmar Loop. Please ride safely with traffic or walk your bicycle along the sidewalk until outside of the business district.
- Ackert Walkway was designed to be just that, a walkway. If pedestrians are present, please ride slowly and safely; if path is crowded, please walk your wheels – this is especially important along the overpass.
- Courtesy is Contagious. Be especially alert, mindful, and respectful while on two wheels.

Transit Options. ~10-15min

The Loop Lofts are conveniently located near three separate bus routes heading towards or directly to campus: the #2 Red and Green Line both travel through campus including the Mallinckrodt Center Loop while #16 City Limits stops along Skinker on the Eastern edge of campus. The Delmar MetroLink stop is a valuable, nearby transportation hub as well.

- #2 Red 30min intervals (~7-12min trip to Brookings)
- Green Line 20min intervals (~15min trip to Brookings)
- #16 City Limits 30min intervals (~9min trip to Brookings)

Campus Support:

Campus2Home
- The Campus2Home shuttle provides a safe ride home between the hours of 7pm and 4am daily (6pm in the winter) from the Danforth Campus to off-campus residences in specific areas near campus, including the Lofts. The shuttle leaves from the Mallinckrodt Center Loop and the Brooking Drive steps every 30min and takes passengers directly to the front doors of their buildings. Shuttle drivers wait and watch to make sure passengers get into their buildings safely.

Circulator
- The Campus Circulator shuttle offers complimentary transportation around the Danforth Campus making stops on the South 40, the Mallinckrodt Center Loop, Brookings Hall, and each of the MetroLink stops on the Danforth campus. One may follow the circulator(s) in real time with a free smartphone app.

It will be important for individuals to try out each of these options in order to know how long each option will take. For questions and more detailed information, visit parking.wustl.edu or reach out to Alternative Transportation Coordinator Andy Heaslet at 314-935-9275 or Andrew.Heaslet@wustl.edu.
